

PROTOSTHETICS

3D PRINTED PROSTHETICS & ORTHOTICS

JOB TITLE: Prosthetic & Orthotic Technician

LOCATION: Fargo, North Dakota

DATE: 10/11/18

ABOUT THE COMPANY

Protosthetics is a company based in Fargo, North Dakota that designs, manufactures, and distributes prosthetic and orthotic devices. It was founded in 2015.

Protosthetics is the first central fabrication facility in the United States to be based solely on 3D printing and CAD/CAM manufacturing. This means lower costs, shorter lead times, and repeatable, predictable quality each and every time. We are based on digital but bring traditional craftsmanship to the table when necessary. Protosthetics is a FDA Registered Medical Device Facility.

ABOUT THE TEAM

We come to work every day because we strive to solve the biggest challenges in the orthotics and prosthetics industry. We work to arm clinics and practitioners with the best tools and products in order to deliver the highest level of patient care. Our team is energetic and always ready to take on the production needs of our customers.

ABOUT THE POSITION

We are seeking an orthotics & prosthetics technician that can craft the various products that we manufacture. A potential candidate enjoys working with their hands and using various powered tools such as grinders, CNC mills, 3D printers, table saws, etc. The job requires to work with many different materials such as composites, plastics, foams, plaster, and others. A candidate must have a good knowledge of anatomy & biomechanics. They may have a background in healthcare, woodworking, mechanics, or such. This position requires someone with true craftsmanship, attention-to-detail, and time-management. There will be on-the-job training by a CTO.

- Part Time & Full Time Available (Salaried or Hourly)
- Core Hours are M-F from 8AM to 6PM
